

**Claims:** I claim:

1. A waterproof housing that functions with multiple video cameras comprising:
  - a. A haul to contain a video camera with a lens for viewing
  - b. A tray to mount said video camera and stabilize within said haul
  - c. An adjustable mechanism attached to said tray for controlling said video camera.
  - d. A lid for sealing said haul, making unit waterproof.
  - e. A means for activating said adjustable mechanism while said haul is sealed
